

Compliance & Audit Services

OVERVIEW

EKKO's compliance service offerings are tightly integrated with our risk management services. EKKO's approach helps you develop a companywide program to address your organizations information technology compliance requirements, whether driven by regulatory, legal or privacy related concerns.

EXPERIENCE

EKKO consultants have extensive regulatory compliance knowledge and experience with implementation, sustaining and fine tuning compliance related activities in small, medium and enterprise sized companies.

- Sarbanes Oxley
- Visa PCI
- HIPAA
- FDA
- SB1386 / AB1298
- GLBA
- BASEL II
- 21CFR

WHAT WE DO

- Streamline compliance processes and reduce your compliance costs.
- Decrease the burden on your internal resources.
- Streamline audit and compliance processes.
- Increases controls visibility and accountability within your organization.
- Analyze and optimize controls within organizations charged with multiple regulations or standards.
- Produce compliance reports and management dashboards.
- Optimize and automate compliance processes and controls.

AUTOMATED COMPLIANCE

We have successfully helped enterprise organization streamline manual IT controls; and provided designs and solutions for automating compliance activities within IT environments. We analyze your control and regulatory environment, review IT processes and provide recommendations for consolidating and automating IT controls. Typically we review current manual processes and provide tangible data that helps determine where valuable IT investments can benefit your organization's compliance and risk management objectives.
