

## ISO27001 Certification

### ABOUT

ekko Consulting, Inc. specializes in the implementation of Information Security Management Systems based on the ISO27002 specification and ISO27001:2005 certification standards.

### METHODOLOGY

We have developed our own 10 Step ISO27001 certification methodology. EKKO's custom method's are tried and tested with our certified customers.

### EXPERIENCE

EKKO is the leading ISO27001 consulting organization in the Bay Area and on the West Coast. We have successfully helped Enterprise organizations become certified to ISO27001.

### OUR CUSTOMERS...

"our ISO27001 certification has paid dividends within one week of certification.. Thank You

"ISO27001 certification has helped drive down our product sales process and made us more competitive in our marketplace.."

### INTRODUCTION

ISO27001:2005 Information Security Management System (ISMS) was released in October 2005, The ISO27001 International Standard has been prepared to provide a model for establishing, implementing, operating, monitoring, reviewing, maintaining and improving an Information Security Management System (ISMS).

### BENEFITS

Learn the benefits of ISO27001 certification and what it means to your business. Talk with us to discuss your business objectives and how ISO27001 may benefit your organization.

Examples of ISO27001 certification benefits are:

- Generate immediate customer confidence when asked about your information security practices and environment.
- Streamline and optimize regulatory compliance initiatives
- Manage your information security and IT investments based on risk and metrics that matter to your business.
- Save time and money by streamlining and optimizing processes
- Provide measurable process and technology output so that you can make more informed management and security decisions
