

ISO27001 Certification Process

ABOUT

ekko Consulting, Inc. specializes in the implementation of Information Security Management Systems based on the ISO27002 specification and ISO27001:2005 certification standards.

METHODOLOGY

We have developed our own 10 Step ISO27001 certification methodology. EKKO's custom method's are tried and tested with our certified customers.

EXPERIENCE

EKKO is the leading ISO27001 consulting organization in the Bay Area and on the West Coast. We have successfully helped Enterprise organizations become certified to ISO27001.

INTRODUCTION

ISO27001:2005 Information Security Management System (ISMS) was released in October 2005, The ISO27001 International Standard has been prepared to provide a model for establishing, implementing, operating, monitoring, reviewing, maintaining and improving an Information Security Management System (ISMS).

BENEFITS

Learn the benefits of ISO27001 certification and what it means to your business. Talk with us to discuss your business objectives and how ISO27001 may benefit your organization.

Some examples of ISO27001 certification BENEFITS we have seen are:

- Generate immediate customer confidence when asked about your information security practices and environment.
- Streamline and optimize regulatory compliance initiatives
- Manage your information security and IT investments based on risk and metrics that matter to your business.
- Save time and money by streamlining and optimizing processes
- Provide measurable process and technology output so that you can make more informed man-

WHAT TO EXPECT FROM US

PHASE 1 - ISO27001 BASELINE

EKKO consultants help you understand the requirements for certification and in turn gather the information we require to be able to provide you a certification roadmap that is specific to your organization and scope.

PHASE 2 - ISO27001 ISMS DESIGN

We evaluate your people, process and technology and work with you to develop the ISMS scope and framework that meets your organizations objectives and goals.

PHASE 3 - ISO27001 PLANNING

Identify and engage the ISO27001 certification body (registrar) and schedule stage 1 & 2 certification audits. We help you document the internal project plan to meet certification objectives.

PHASE 4 - ISO27001 RISK ASSESSMENT

Define and document your information risk management methodology that is compliant with ISO27001 process requirements for assessing risk. Inventory your assets, perform and document your risk assessment..

WHO WE ARE

We are a team of ISO27001 experts and information security professionals dedicated to service excellence and customer satisfaction.

WHAT OUR CUSTOMERS SAY...

"our ISO27001 certification has paid dividends within one week of certification.. Thank You

"Our ISO27001 certification has helped drive down our product sales process and made us more competitive in our marketplace.."

PHASE 5 - ISO27001 TRAINING

Identify and schedule training requirements for those involved in the ISO27001 ISMS.

PHASE 6 - ISO27001 IMPLEMENTATION

Implement the ISO27001 ISMS, related processes and start using the management system.

PHASE 7 - ISO27001 INTERNAL REVIEW

EKKO consultants help you conduct your initial internal assessments and reviews. Process and ISMS gaps

PHASE 8 - ISO27001 STAGE AUDITS

EKKO consultants assist with the Stage 1 & 2 certification audits performed by the certification body chosen by your organization.

PHASE 9 - ISO27001 CERTIFICATION

Upon successful completion of Stage 1 & 2 your certificate is awarded for an initial period of three years.

PHASE 10 - ISO27001 INTERNAL AUDIT AND SUPPORT

EKKO consultants continue to facilitate your ISMS process and internal audits. We assist and support your through certification surveillance audits to ensure you maintain your ISO27001 certificate. As your ISMS matures we help you mature and evolve your ISMS program as your business drivers and requirements change.

Metrics, measurement and improvement are key to the ongoing evolution and success of your ISMS.
